## JEFFREY SWEENEY CHAIRMAN & CEO

Jeffrey is a lifelong entrepreneur with extensive experience in leading firms with a forward-thinking approach. Currently Chairman and CEO of US Capital Global, a full-service private financial services group headquartered in San Francisco, Jeffrey is a keen supporter of technological innovations that can help to improve and grow the finance sector.

Now in its twentieth year, US Capital Global has established itself as a FinTech investment bank through deploying a successful strategy that leverages technological innovation (FinTech) and regulatory developments (RegTech). The group is a leading provider of sophisticated financing solutions and investment opportunities for lower middle market businesses. Under Jeffrey's leadership, the group consistently fulfils its commitment to doing well by doing good through facilitating profitable economic development that also has a positive social and environmental impact.

Prior to being a financier, Jeffrey served as a principal and CEO of Machine Works Corporation, a lower middle market aerospace manufacturing company. His experience leading a business in the highly-regulated aerospace manufacturing industry has led to his appreciation of the need to work

closely with regulators while adopting technological solutions to innovate in the sector. This successful approach has been brought over to US Capital Global, where leveraging innovation and regulatory developments has been a key driver in the firm's growth as a FinTech investment bank.

As an experienced speaker and panel chair, Jeffrey brings a dynamic yet structured approach to engaging the panel and the audience. He frequently presides over and participates in a variety of finance and FinTech events, and recent speaking engagements include:
