US CAPITAL GLOBAL BUSINESS CREDIT INCOME FUND, LP

**FUND OBJECTIVE**

The General Partner's aim in creating the US Capital Global Business Credit Income Fund, LP (the "Fund" or the "Partnership") is to deliver a net return of at least 12% each year to its Limited Partner Investors, primarily by providing direct senior loans of \$1 million to \$10 million to qualifying small and medium-sized businesses (SMBs). The General Partner believes that there continues to be a thriving SMB segment seeking such alternative debt financing. The General Partner has a robust proprietary flow of lending opportunities from its affiliate company, US Capital Global Partners LLC, a licensed broker lender and believes that ongoing lending opportunities continue to exist.

The platform, available at [www.uscgs.com](http://www.uscgs.com), is offered through the group's registered broker dealer affiliate, US Capital Global Securities LLC. Originally launched over three years ago, the online platform and offerings are fully compliant with current securities regulations. US Capital Global Securities has now added new features to the platform to provide more detailed information on select alternative private market investments available through general solicitation to accredited investors.

US Capital Global focuses on providing sophisticated debt, equity, and fixed-income investment products to lower middle market companies and investors, using the latest FinTech and

RegTech innovation. Many of its co-investment opportunities and private placements are provided by US Capital Global Securities LLC.

“We are delighted to be offering additional features and enhanced functionality on our digital investment platform,” said **Jeffrey Sweeney**, Chairman and CEO at US Capital Global. “US Capital Global originates or is presented with over \$4 billion in potential funding opportunities each year. Through this digital platform, investors have access to a curated selection of actively managed private placement opportunities and opportunities sourced from this large proprietary deal flow.”
