INVESTMENT OPPORTUNITY

SMBs are the engine of the economy. These businesses consistently demonstrate attractive performance metrics, with revenue growth for companies with $10 million to $100 million of revenue being higher and significantly more stable than that of the S&P 500. The lower and middle market has consistently delivered strong performance during both recessionary and growth periods of the overall economy.

The Issuer believes that there continues to be a thriving SMB segment seeking such alternative debt financing and looks for parties that have robust proprietary flow of lending opportunities to invest in qualified companies.

INVESTMENT OBJECTIVE

To both preserve principal and achieve consistent attractive returns by making primarily senior debt investments in small and lower middle market private and public companies located primarily in the United States.
INVESTMENT OPPORTUNITY

Takeout Group is seeking EUR 2 million in Convertible Debt to provide working and growth capital and to retire current debt maturing in 2020.

Takeout Group A/S is a licensing technology company challenging the takeout ordering and delivering space with its white-label, all-in-one solution. The platform addresses a market need enabling restaurants to a) profit from on-line presence and b) reclaim their customers from aggregators ensuring rapid adoption and sustainable long-term economics.

INVESTMENT OPPORTUNITY

EQITrade Limited is seeking to raise USD 5,000,000 in equity to improve and add new features to EQIBank’s digital banking platform, provide working capital and retire debt. (Debt retirement might change as conversion to equity is being negotiated).

The issuer is a Special Purpose Vehicle structured to allow investors’ indirect ownership of Cayman Islands based EQITrade Limited, which is the parent company of EQIBank Limited with 100% ownership. Direct investment possible for certain investors, e.g. strategic investors.

New Fund Management Opportunities: Both emerging and seasoned strategy management teams will typically look for ways to raise capital from friends and family investors. However, there are usually limits to the amount of capital that can be raised that way. Often the opportunities to grow the strategy are robust, but growth is constrained by either the distraction of fundraising, the need for third-party due diligence, or the limited investor resources available. High regulatory standards can also play a role in restricting successful teams from finding sufficient funds for growth.
WEALTH MANAGEMENT

We actively manage positions in risk-adjusted stock portfolios. As early adopters and innovators in the now popular quantitative analytics, we have had remarkable success with many long-term clients designing and managing diversified portfolios.

Our analysts also very closely follow many individual stocks and sectors. We look carefully for opportunity in undervalued companies or potential near-term growth in these liquid public securities.

We offer personal financial, retirement, and high-level tax planning. Our professionals are very experienced in these matters and welcome the opportunity to help clients with their long-term financial needs.

PRIVATE CLIENT SERVICES

Our private clients often have alternative investments in private debt, equity, real estate, or family businesses. If you are interested in expanding, refinancing, selling, or acquiring these assets, your wealth advisor can provide easy access to our investment bankers for advice or to facilitate those transactions.

We have extensive expertise in providing debt, equity, and M&A for small and lower middle market privately held businesses located in the US or abroad. Our Investment Banking team also has many carefully reviewed alternative investment opportunities for direct investment into private debt or equity, as well as professionally managed, diversified funds focused on these types of investments.

Please feel free to contact one of our licensed wealth managers to see if US Capital Global can be of service.

CUSTOM CORPORATE FINANCE SOLUTIONS
Cash Flow Loans: Companies with above-average or exceptional positive cash flows can expect low commercial rates with affordable and flexible loan structures. We provide maximum availability with covenant-light structures and rapid funding.

Asset Based Loans: Companies with average or below-average cash flows or credit-worthiness can expect asset-based loans with a focus on collateral, rather than credit-worthiness, and therefore an attractive alternative to traditional bank financing. You can expect competitive pricing, expedited funding, and fewer financial covenants than bank loans. Often, US Capital Global is able to increase availability through the discovery of credit enhancers and ways to mitigate credit risks, ensuring you get optimal and custom financing for your business.
